**A CHIHANDA CHATETE: KWALUMUNA MUJIMBU [JISAMBISO 20]**

**Alumuna ou mujimbu kufuma mu Englishi nakuutwala mu Luvale.**

The happiest moments of our lives come when we accomplish something that we never expected. The unexpected, however, to be appreciated, should be the resultant of our personal efforts. I remember when I was still in Grade 10 how I used to fail in all the subjects. In Grade 11, my performance became ever worse such that there was no single subject that I got above 50%. I was never free to mingle with my peers especially when I would bring in school related stores.

It was during the December holiday that I sat down and reflected. I thought about how my parents had suffered and sacrificed a lot just to see me forge ahead with my school. This was my turning point. I could not wait for schools to re-open. My final year surprised many. Both the teachers and my fellow learners were very amazed at my performance. Here I am studying medicine at University of Zambia (UNZA).
