- I. **Marriage**; it's simply a union between one man one woman to the exclusion of all
- II. **Filiation**; it is simply the condition of being a child
- III. **Succession**; it is when the next of kin takes over control of a deceased person
- IV. **Magistrate**; he /she is the person who presides over court sessions
- V. **Urbanization**; its simply the process of transforming rural areas into cities

Ownership can be transmitted by;

- Consent
- Gift
- Exchange

Natural easement; imposed by the natural situation of the land

Legal easement; imposed by law such as public interest easement

Man made easement; payment agreements grants

The concept states that the source of the water on the land belongs to the owner but if it is the only water source in the area, then the public has the right to carry the water

The principle states that he who owns the land owns what is above and below

Part two

- 1) NO because he is not a sworn surveyor and is not registered in the national order of expert surveyors (NOES)

- 2) It shows prove of ownership of the land, **and has as characteristic;**
un assailable, inviolable, final
- 3) Exercising without an insurance policy
Offering help to someone who is incompetent
