MINISTRY OF SECONDARY EDUCATION

INSPECTORATE GENERAL OF EDUCATION

Order N° 264/14 /MINESEC/ IGE 13 AUG 2014

To outline the syllabuses for Form I and Form II of Secondary General Education.

THE MINISTER OF SECONDARY EDUCATION,

- Mindful of the Constitution;**
- Mindful of the Law N° 98/004 of 14 April 1998 to lay down Guidelines for Education in Cameroon;**
- Mindful of Decree N°2011/408 of 9 December 2011 to reorganise the Government;**
- Mindful of Decree N°2011/410 of 9 December 2011 to form the Government;**
- Mindful of Decree N°2012/267 of 11 June 2012 to organise the Ministry of Secondary Education;**

HEREBY ORDERS AS FOLLOWS:

Article 1: The syllabuses for Form I and Form II of Secondary General Education shall be outlined as follows:

PREFACE

SYLLABUSES FOR 21ST CENTURY CAMEROON

At the beginning of this millennium, as Cameroon chooses to become an emerging nation by the year 2035, its secondary education sector faces many challenges. It should:

- Offer quality training and education to most young Cameroonians within a context marked by large classes in primary education;
- Prepare them for smooth insertion into a more demanding job market worldwide, through a pertinent teaching /learning process.

In addition, training tools have significantly evolved in their conception and implementation. A school that was mostly based on contextualised knowledge acquisition has given room, all over the world, for a school that aims at empowering learners to help them cope with complex and diversified real life situations. Instead of a school cut off from society, we now have a school deeply rooted in a society that takes into account sustainable development, local knowledge and cultures.

The implementation of this new school ,prescribed by the Law to lay down guidelines for education in Cameroon, and the necessity for socio-professional insertion require the adoption of a pedagogic paradigm for the development of syllabuses relating to **“The competence based approach with an entry through real life situations “**.

In this perspective, new syllabuses for Secondary General Education, those of Teacher Education and Training Referentials for Technical Education are part of this great change for the re-dynamisation of our education system. They are in line with the implementation of the provisions of Growth and Employment Strategy Paper (DSCE) which, by the year 2020, specifies the minimum amount of knowledge which each Cameroonian is supposed to possess by the time they leave the first cycle of secondary education.

These syllabuses define essential competencies that should be acquired by learners within the first cycle of secondary education, in terms of knowledge, know how and attitudes. They equally define the framework that will enable teachers to organise their pedagogic activities.

While congratulating all those who designed these syllabuses, I hereby exhort all the members of the education family, notably teachers, to acquaint themselves with the new paradigm, to effectively implement it and make the Cameroon education system successful.

 The Minister of Secondary Education
Louis Bahes Bahes

FIRST CYCLE SYLLABUS REVIEW

A PARTICIPATORY AND INNOVATIVE APPROACH

The syllabuses that were drawn up by the Inspectorate General of Education in the Ministry of Secondary Education since 2012 are in accordance with the major guidelines for education in general and secondary education in particular as they are enshrined both in the 1998 law to lay down guidelines for education in Cameroon and in the 2009 Growth and Employment Strategy Paper(DSCE) .

These orientations could be summarised, amongst others, to train within the framework of an emerging Cameroon in the year 2035, citizens that will have a good mastery of the two official languages (English and French), deeply rooted in their cultures but open to a world in search for sustainable development and dominated by Information and Communication Technologies.

Conceived in the various Inspectorates of Pedagogy, and later introduced for trialling in secondary and high schools during the 2012/2013 school year, these syllabuses were developed with the contributions of classroom teachers and teacher trade unionists.

The new syllabuses had to undergo many changes:

- a shift from a skill based approach to a competence based approach through real life situations;
- a shift from a school cut off from society to one that prepares citizens for a smooth insertion into socio-cultural and economic activities ;
- a shift from an evaluation of knowledge to that of competences necessary to sustainable development.

When these new changes and orientations were taken into account, they naturally led to a shift of paradigm within the curriculum reform process. The option we have adopted is the competence based approach through real life situations.

The syllabuses of the first cycle of Secondary General Education are broken down into 5 areas of learning, each of them containing a given number of disciplines as shown in the table below.

Areas of learning	Disciplines
1- Languages and Literature	<ul style="list-style-type: none"> - French - English - Living Languages II - Ancient Languages - Literature(in English and in French)
2- Science and Technology	<ul style="list-style-type: none"> - Mathematics - The Sciences(Physics, Chemistry, Technology, Life and Earth Sciences) - Computer Science
3- Social Sciences/Humanities	<ul style="list-style-type: none"> - History - Geography - Citizenship Education
4- Personal Development	<ul style="list-style-type: none"> - Sports and Physical Education - Manual Labour
5- Arts and National Cultures	<ul style="list-style-type: none"> - National Languages - National Cultures - Arts

For 6e and 5e (Francophone sub -system of education), the weekly workload and the quota as compared to the total number of hours on the time table (32 h) are displayed in the table below.

Domaines d'apprentissage	Volume horaire	Quota
Langues et Littératures	10 h	30%
Sciences et Technologies	08 h	25%
Sciences Humaines	06 h	20%
Arts et Cultures Nationales	04 h	15%
Développement Personnel	03 h	10%

One hour is allotted for preps.

For the Anglophone sub-system of education (Form I and Form II) the same information is summarised in the table below.

Areas of Learning	Weekly workload	Quota
Languages and Literature	10 h	30%
Science and Technology	08 h	25%
Social Sciences	06 h	20%
Arts and National Cultures	04 h	15%
Personal Development	03 h	10%

The Inspector General of Education

Dr. Mrs Evelyne Mpoudi Ngolle

END - OF - FIRST CYCLE LEARNER'S EXIT PROFILE

The first cycle of Secondary General Education admits young graduates from primary schools aged between ten and fourteen. Its general objectives are not only to build intellectual, civic and moral skills in these children but also competences and fundamental knowledge which will either enable them to foster their education in the second cycle, or to prepare them for a smooth insertion into the job market after professional training.

Thus, within the framework of these new syllabuses, the learner is expected , after the first cycle of secondary education, to be able to use his/her competences to solve problems through family of situations relating to domains of life as indicated in the table below:

N°	Domains/Areas of life	Families of situations to be treated in the 1 st cycle
1	Family and social life	<ul style="list-style-type: none"> • Participation in family life • Healthy professional relationships • Social integration
2	Economic life	<ul style="list-style-type: none"> • Discovery of income generating activities • Discovery of the job market, social roles, jobs and professions • Self confidence, aspirations, talents, self potential • Practising healthy eating habits
3	Environment , health and well being	<ul style="list-style-type: none"> • Preservation of the Environment • Quest for a healthy life style • Choosing and practising a healthy life style
4	Citizenship	<ul style="list-style-type: none"> • Mastery of rules and regulations governing the Cameroonian society • Discovery of cultural values and customs of the Cameroonian society
5	Media and Communications	<ul style="list-style-type: none"> • Discovery of the media world • Discovery of Information and Communication Technologies

In order to achieve these objectives, the learner should be able to mobilise , within the various disciplines and constructive areas of learning of the syllabuses, all the pertinent resources in terms of knowledge, know how and attitudes.

The next table gives you a general overview of the afore-mentioned objectives, while the syllabus for each subject unfolds, in details, all the expected competences per level and at the end of the 1st cycle.

Areas of Learning	Disciplines	Expected outcomes at the end of the 1 st cycles
1-Languages and Literature	Living languages: English, French , German, Italian, Spanish, Chinese, Etc.	French and English , L1 Receptive skills: reading and listening Read in an autonomous way, different types of texts related to areas of life as defined in the syllabus; Listen and understand various texts related to the above mentioned areas of life Productive skills: speaking and writing Produce various types of texts , of average length related to these areas of life; Language tools: appropriate use of various language tools in order to produce and read types of texts related to that level;
	English to Francophone learners French to Anglophone learners	Communicate accurately and fluently using all four basic skills in language learning; Be able to transfer knowledge learnt in class to real life situations out of the classroom; Be able to cope and survive in problem solving situations;
		Living languages II Receptive skills: reading and listening Read and understand simple texts on social life, citizenship, the environment, well being and health, media etc.. Listen and get oral information in order to simply interact during communication situations related the various domains of life. Productive skills: speaking and writing Sing, recite, dramatise , orally answer questions related to the various domains of life as defined in the syllabus;

		Write short passages on various familiar topics.
	<p>Ancient languages: Latin, Greek</p> <p>National languages</p> <p>Literature Cameroon Literature; French Literature; Francophone Literature; Other literatures</p>	<p>Develop general knowledge through ancient languages and cultures; know the origins of the French language for linguistic mastery;</p> <p>Carry out elementary tasks in translation.</p>
2-Science and Technology	Mathematics, The Sciences Computer Science	<p>Use mathematic knowledge skills and values with confidence to solve real life problems within the different domains of life;</p> <p>Communicate concisely and unambiguously and develop power of mathematical reasoning (logical thinking, accuracy and spatial awareness).</p>
		<p>The Sciences:</p> <p>Acquire the fundamentals of sciences in order to understand the functioning of the human body, the living world, the earth and the environment;</p> <p>Acquire methods and knowledge to understand and master the functioning of technical objects made by man to satisfy his needs;</p> <p>Demonstrate attitudes to protect his/her health and environment.</p>
		<p>Computer Science :</p> <p>Master the basics of Information and Communication Technologies;</p> <p>Exploit and use ICTs to learn.</p>
3- Social Sciences	History	Possess cultural references to better locate events in time and

/Humanities	Geography Citizenship Education	space within a democratic system and become a responsible citizen. History: Acquire a common culture ; be aware of heritage from the past and current challenges; Geography : Develop one’s curiosity and knowledge of the world; Get acquainted with landmarks to find your way and fit in the world. Citizenship Education: Possess essential knowledge in rights and duties in order to fulfil his/her citizenship.
4- Personal Development	Moral Education; Home Economics; Sports and Physical Education Health Education	Develop his / her physical abilities/skills ; Get ready for physical challenges , save and regain energy after physical efforts; Identify risk factors; possess basic knowledge and principles in hygiene and health education; Demonstrate a sense of self control and appreciate the effect of physical activities. Conceive and draw up sports and cultural animation projects; Acquire methods and develop a high sense of efforts; Conceive, draw up and implement projects that will enable one to project his/her image and feel the well being inspired by self-confidence.
5- Arts and National Cultures	Arts/Artistic Education; National Cultures	Artistic Education: Observe and appreciate works of art; Carry out an artistic activity; Gradually acquire the love for personal expression and creativity; Possess a mastery of creativity in music, plastic arts and the performing arts. Dramatise, recite texts (poems, tales, proverbs, etc.) relating to various areas of society; Practise the different dramatic genres: sketches, comedy, tragedy, drama, etc.

		<p>National languages and Cultures Demonstrate a mastery of Cameroon cultures; Visit the various cultural areas of the country in order to discover their characteristics; Demonstrate a mastery of basic rules in writing Cameroonian languages as well as basic grammatical notions applied to these languages; Demonstrate a mastery of one of the national languages at 3 levels: morpho-syntax, reception and production of simple oral and written texts.</p>
<p>Even though the learners acquires skills in different disciplines, these competences are accompanied by other skills known as cross curricular competences related to intellectual, methodological, social and personal areas of learning.</p>		
6- Cross curricular competences	Intellectual and Methodological domains	<p>Solve Problem in a given situation; Use knowledge skills and values with confidence in order to solve real life problems within the different domains of life; With confidence, find useful information to solve problems he/she is faced with; Give his/her opinion ; Support his/her opinion with strong arguments ; Assess him/herself with a view to remediation; Demonstrate basic knowledge in note taking ; Conceive and realise individual projects; Analyse and summarise information, give feedback and report orally or in writing. Develop problem solving approaches; Exploit and use ICTs in his/her activities.</p>
	Social and Personal Domains	<p>Interact positively and assert his/her personality while respecting that of other people; Join team work, fit in a common initiative project /group; Demonstrate interest in cultural activities ;</p>

		Develop a sense of effort, love for work, perseverance in tasks or activities carried out ; Understand and accept others in intercultural activities; Accept group assessment.
--	--	--

The resources to be mobilised by the learner are found in many disciplines and areas of learning. So it is important to implement these syllabuses not in isolation but as interrelated subjects. These remarks hold both for subject and cross curricular competences. They are so called to show that they should be developed through teaching/learning activities of the different subjects. The development of subject and cross curricular competences concern the entire education family as they are capable of inspiring an educative project and the putting in place of extra curricular activities. The ultimate training goal of these syllabuses, at the end of the first cycle, is to enable the learner to be self reliant, to be able to keep on learning through out his/her life, to contribute to sustainable development and become a responsible citizen.

***LEARNING AREA : SOCIAL SCIENCES
FORMS 1 and 2***

SUBJECT SYLLABUS: HISTORY SYLLABUS
SECONDARY GENERAL EDUCATION: FORMS 1 & 2 CLASSES

General Presentation of the Syllabus

History is the study of past events based on diverse sources. Together with the other disciplines that make up the curriculum, it contributes to:

- The intellectual training of learners which enables them becomes independent with a high critical and reflective thinking capacity.
- Integrating the learner into the social and professional life.

As a mind-training discipline, History permits the acquisition of tools necessary for the understanding of the roots of the present, in order to better prepare for the future and avoid the mistakes of the past. It develops in the learner, the capacity of being open to the world while being more sensitive to problems of common interest and the wellbeing of humanity.

This syllabus follows the Competency-Based-Approach (CBA) with points of entry being Life Situations. The learner's competence is developed from the chosen families of situations.

This permits him/her to determine what actions to take and to identify the necessary resources to resolve a given problem. This syllabus provides the contextualisation framework, competency development and resources.

The Place of the Syllabus in the Curriculum

Learning history has as goal the acquisition of a greater consciousness of cultural identity. It enhances tolerance and mutual understanding among people on the one hand and on the other hand, contributes to national integration, the affirmation of the Cameroonian personality, thus reinforcing patriotism. It also promotes African unity and integration.

Contribution of the Syllabus to the Area-of-Learning

The Area-of-Learning called the Social Sciences is made up of disciplines that are concerned with matters associated with human societies and their works. These disciplines are History, Geography, Philosophy, Citizenship Education and Economics. History develops the critical and imaginative mind, judgmental spirit as well as self – assertion. It calls for the observation of the here and there, yesterday and today thus being awakened to change and diversity that characterize the present world.

Contribution of Syllabus to Areas – of – Living

This syllabus has as ambition, to reinforce the young learner's acquired resources in the Areas – of - Living, which are citizenship, family and social life. It works towards the harmonious integration into the family and society and a better understanding of the world by the learner. This syllabus contributes to the building up of good citizenship.

Presentation of the Families of Situations Covered by the Syllabus

N°	Family of situations	Area-of-Living
1	African Identity Crises	Family and social life
2	Religious Life	
3	Leadership	
4	Openness to Others	
5	National Integration	Citizenship

Summary Table of Content of the Different Modules

CYCLE	CLASS	MODULE	STATUS	DURATION
FIRST	FORM 1	The legacies of ancient African civilization in the thoughts and edification of the present world	COMPULSORY	22 Hours
		The legacies of ancient European and Asian civilizations in the thoughts and edification of the present world		09 Hours
		The contributions of monolithic religions to the thoughts and edification of the present world		17 Hours
	FORM 2	The peopling and socio – political organization of Cameroon		26 Hours
		The Golden Age of Africa		14 Hours
		Relations between Africa and the rest of the world		20 ours

PROGRAMME OF STUDY (SYLLABUS): HISTORY

From the early man to the 15th Century

- **Total Number of Hours : 120 Hours**
 - ◆ **Teaching-Learning: 90 Hours**
 - ◆ **Evaluation-Correction- Remediation: 30 Hours**

- **Number of Hours per Week: 2 Hours**
- **Coefficient : 2**

FORM ONE CLASS

MODULE 1

TITLE OF MODULE: The legacies of ancient African civilization in the thoughts and edification of present world.

NUMBER OF INSTRUCTIONAL (TEACHING/LEARNING) HOURS: 22

PRESENTATION OF MODULE: The module introduces the learner to History as a discipline. It equally enables him/her to discover that present civilizations owe themselves to the past.

CONTRIBUTION OF MODULE TO THE AIM AND GOALS OF THE CURRICULUM: The module prepares the learner to accept his/her role as a responsible member of his/her family and community.

CONTRIBUTION OF MODULE TO THE SYLLABUS AND AREA-OF-LIVING: The module contributes to the learner's awareness of his/her identity and the assertion of his/her African personality.

DIAGNOSTIC EVALUATION: Evaluation of Knowledge acquired in Previous class	Discussion	2 Hours
--	-------------------	----------------

Contextual Framework		Competent Acting (Functioning)		Resources							Duration of Lesson	
				Essential Knowledge				Skills (Aptitudes)	Values & Attitudes	Other Resources		Methods & Techniques

FORM TWO CLASS

MODULE 1

TITLE OF MODULE: The Peopling and socio – political organization of Cameroon.

NUMBER OF INSTRUCTIONAL (TEACHING/LEARNING) HOURS: 26

PRESENTATION OF MODULE: The module permits the discovery of the traditional civilizations of Cameroon.

CONTRIBUTION OF MODULE TO THE AIM AND GOALS OF THE CURRICULUM: This module contributes to the establishment of national integration and develops a spirit of citizenship.

CONTRIBUTION OF MODULE TO THE SYLLABUS AND AREA-OF-LIVING: This module makes for a better understanding of some socio-political and economic issues of Cameroon.

DIAGNOSTIC EVALUATION: Evaluation of Knowledge acquired in Previous class

Discussion

2 Hours

Contextual Framework		Competent Acting (Functioning)		Resources								Duration of Lesson
Family (Bank) of situations	Examples of Situations	Category of Actions	Examples of Actions	Essential Knowledge				Skills (Aptitudes)	Values & Attitudes	Other Resources	Methods & Techniques	
				Topic	Sub-topics	Lessons	Notions/ concepts					
National Integration	Tribalism	The promotion of national integration	-Denounce all forms of discrimination directed towards minorities - Take into consideration the rights of minorities and natives - Discover other tribes and their cultures	The peopling and socio-political organisation of Cameroon	1. Origin of the peopling of Cameroon: The Sao and Pygmies	1. The Sao and the Pygmies - Location - Social Organisation - Way of Life	- Peopling - migrations - first (pioneer) settlements - society	- Situate the different groups on a map of Cameroon - Situate the main migratory stages of these groups on a time chart - Trace the migratory routes of one's ethnic group - Trace the migratory routes of some other groups - Recount a legend of the migratory route of a people	- Responsibility - Pride - Sense of initiative - Self confidence - Commitment - Patriotism - Courage - Optimism - Respect for differences and diversity - Critical mind	- Chalkboard - Textbooks - Resource Centres - Library - Museums - Human resources (Teachers, resource persons etc.) - Material resources	- Brain storming - Discussion/ debates - Exercises on time chart - Role play - Group work - Analyses of documents (Tales, pictures, films, passages etc.) - Reports/ Enquiries/excursion/ Field visits /Practical works NB: Each teacher should choose the method appropriate to lessons	2 Hours

***USER'S GUIDE
FOR THE SYLLABUSES OF
CITIZENSHIP EDUCATION, HISTORY & GEOGRAPHY***

TERMINOLOGY (GLOSSARY)

Curriculum: All the courses of study offered by an educational institution or a group of related courses, often in a special field of study. It includes a statement that regroups the aims, the activities and the steps of training and teaching, the didactic material, the modality and means of the assessment as well as the human resources and the time frame.

Curricula Aim: stated principles that orient a curriculum

Curricula Goals: General objectives of the curriculum.

Module: A unit of instruction (main topic) based on the resources that enable the development of particular competences. In the syllabus, it corresponds to a theme.

Chapter: A group of related topics.

Lesson: All teaching-learning activities covering a portion of the syllabus carried out during a clearly defined period. It can also be considered as a well determined period during which a portion of the syllabus is covered through the teaching-learning activities.

Notion/concept: This is a word or expression that enables the understanding of the lesson. This is a word or expression that underlies a lesson or which covers a major aspect of the lesson. Each notion or concept has sub-conceptions linked to it. Notions are therefore the references for the preparation of a lesson.

Area of Living: An aspect of life of a community (society) to which is attributed a social role. For example, family health and wellbeing, the working world, citizenship etc.

Social Role: This is a function that an individual accomplishes in a community. For example, a citizen of Cameroon and the world, manufacturer of goods and services.

Contextual Framework: Family (group) of situations and examples of situations which the syllabus intends to train the learner in.

Life Situations: The totality of circumstances that confront a person. For example, pollution.

Family (Group or Bank) of situations: All life situations sharing at least a common characteristic (property). For example, the environment and management of natural resources and waste.

Competent Functioning (Acting): All actions deployed by an individual in order to improve on a situation.

Action: This is what makes an individual competent in handling a life situation successfully. It is an action made by a person to demonstrate competency. For example: sort waste, recycle waste.

Category of Actions: These are all actions having at least a common characteristic. For example, developing friendly ecological behaviour (ecocentric). In the approach of starting (entry) with situations, competence refers to competent functioning, that is, the category of actions and the actions.

Resources: Means used by an individual to solve a situation. There are **internal resources** (essential knowledge, skills and attitudes/values) and **external resources** (personnel and instructional materials).

Essential knowledge: Knowledge from disciplines.

Skills/Aptitudes: Abilities/competences to be developed from a discipline for handling situations.

Attitudes/Values: Behaviour expected from a learner in the face of situations.

Method: Manner of doing something or reacting/ technique used by a teacher (instruction) to conduct appropriately teaching-learning activities.

Further Study (Extension): A group of documents on a topic which enables the completion and enriching of a lesson, chapter or module. It is virtually an analysis of all relevant documents that add more knowledge to the topic.

Practical Work: An exercise that permits the learner to plough back in a concrete and active manner the theoretical knowledge from the lesson.

Guided (Directed) Work: All exercises prepared, followed up and supervised by the teachers which are intended to reinforce skills, methods and knowledge of the discipline in the learner.

Evaluation (Assessment): The act of considering or examining learners in order to judge the value, quality, importance, extent of understanding, or conditions of instructions (teaching). The act of measuring the knowledge of a learner or the quality of an instruction, guided by set criteria.

Diagnostic Evaluation: An assessment of knowledge which permits the measuring of the actual level of knowledge of the learners in relation to their class in a bid to make remedy if judged inadequate.

Formative Evaluation: An assessment of the level of acquisition of resources (knowledge, skills and attitudes) and the ability to make use of them.

Summative Evaluation: An assessment which enables the teacher to verify through a questionnaire or series of exercises the difference between targeted (expected) and obtained results. This is always indicated by a score or mark.

Certificate Evaluation: This is an assessment that enables an appreciation of the level of instruction acquired by a learner at the end of a cycle of study. It is accompanied by a Diploma (Certificate).

Competence: This is the capacity to react with efficiency in any given situation or the capacity to mobilise relevant resources to resolve problems in a given situation.

Syllabus (Programme of Study): A subject or discipline (History, Citizenship Education, Philosophy, Geography, Economics, etc.) organised in modules.

Area (Field) Learning: This is the syllabuses of all subject areas with some linkages. For example, language field (English, French...), Humanities and Social sciences field (History, Citizenship Education, Philosophy, Geography, Economics, etc.).

Teaching-Learning Situation: These are all the activities conceived by a teacher that enable a learner to mobilise (acquire) the resources necessary for the development of competencies.

Observation Sub-cycle: This is the segment of Secondary Education comprising of the classes of Levels (Forms) 1 and 2.

INTERPRETATION AND UTILISATION OF THE SYLLABUS GRID

The syllabus grid is a summary table of the rubric (headings) following the sequence suggested by the Competency Based Approach (CBA), with entry by situations.

1. How to interpret the syllabus grid

Step 1: Reading horizontally: It goes from the **Contextual Framework**, through **Competent Acting** to **Resources**.

Step 2: Reading vertically: It introduces the teachers to the content of each rubric (heading).

❖ **The families of situations and the categories of have been prescribed and must not undergo any modification.**

+ On the contrary, the situations and the actions indicated in the grid are only examples. The contextualisation of teaching compels the teacher to give preference to situations and actions in his immediate environment.

❖ **Each module corresponds to a topic and every topic is divided into chapters and then into lessons. However, there are some chapters that form but a single lesson.** In some cases, lessons are proposed for the choice of the teachers. Examples are found in the History Syllabus for Form 2.

❖ **Notions** are major concepts about the lesson and parts of the lesson.

❖ **Further Study (Extensions), practical work and Guided (Directed) Work accompany some lessons and are obligatory.**

+ Each lesson, Further Study (Extensions), practical work and Guided (Directed) Work has a determined timeframe (duration).

+ Further Study (Extensions), practical work and Guided (Directed) Work are complete didactic sequences (lessons) on their own. As such, they must follow the same procedure of lesson preparation (Notes of Lesson).

❖ The rubric "**others resources**" refers to the external resources (instructional materials and human resources).

2. How to utilise the syllabus grid

❖ The teacher first consults the contextual framework and Competent Functioning. From these he/she identifies the family (group) of situations, and category of action. Subsequently he/she identifies the situations relevant to his/her immediate environment. Conversely, he/she looks for situations that conform to their immediate environment, or he/she sticks to the situations and actions listed in the grid. He/she then prepares his/her lesson but making sure that the teaching-learning activities should always be in line with the families of situations and the categories of actions.

METHODOLOGICAL APPROACH

Just as teaching by objectives, the competency based approach of learning leans on the use of active methods or teaching techniques which place the learner (Student) at the centre of Instruction. The teaching/Learning techniques we are going to discuss are:

- **Discussion/debate**
- **Brainstorming**
- **Role play/Simulation**
- **Group work**
- **Lecture and analysis of documents**
- **Presentation**
- **Interviews**
- **Enquiries/Excursions/Field work**
- **Practical Work**

I-Discussion/Debate

Discussion method or debates are aimed at encouraging an active and balanced participation of learner (Students) in class. During discussions, all the students or small groups share their thoughts on a topic or given subject. Meanwhile, debates take place between two groups of students defending contrary views on a given topic.

HOW TO CARRY OUT DISCUSSION IN CLASS

Objectives	Preliminary Steps	Leading the discussion/debate
<p>-Find out what learners know about a topic</p> <p>-Develop discussion skills such as humility tolerance, patience, giving an opinion.</p>	<p>-Set the following rules from the start-</p> <ul style="list-style-type: none"> • Listen carefully to others and wait until they have finished before you talk. • Feel free to disagree with others' views but <p>Show- them respect and their views.</p> <p>2)Manage well the debate by putting on the board</p> <p>-The debate topic</p> <p>-The objective of the debate</p> <p>-The desired results or outcome.</p>	<p>-Allowing time for students to reflect on the topic/subject and if necessary let them pen down their thoughts.</p> <p>-Acknowledge the contribution of each student. It is helpful to write the key points on the chalk board to permit subsequent summary and analysis'</p> <p>-Encourage students to participate in the discussion by inviting them to add further views or in asking them if they agreed/disagreed with the points of the others</p> <p>-Encourage the students to talk to each other rather than directing all comments to the teacher.</p>

DEALING WITH DIFFICULTIES

Difficulties	Remediation
Inaccurate information given by the learner	<ul style="list-style-type: none"> - Consider if the mistake/error is significant. If yes, ask the other students to give their opinion/intervene in a manner that will not discourage the original speaker. - Decide when to correct the misunderstanding yourself
When the students are reticent or reluctant to speak	<ul style="list-style-type: none"> - Remind them the objective is to explore ideas and points of view not to find the correct answer.
When discussion becomes disorderly	<ul style="list-style-type: none"> - Remind the students of the two rules set at the beginning or start of the discussion
When the talking is monopolized by a few students of a group	<ul style="list-style-type: none"> - Incite the other students to participate through questions - Ask those that have remained silent to read what they have written down
When discussions turn off to sensitive political issues, religious convictions/practice or cultural beliefs	<ul style="list-style-type: none"> - If the discussion is relevant to the syllabus, give more time in class for further exploration of the topic. Encourage the students to carry out research independently. - If not pertinent, the question or issue might be discussed out of the class to help the student concerned. Suggest that the student carries out individual research on the topic.

II- BRAINSTORMING

Brainstorming is a technique that encourages thinking by creating an atmosphere of suspended judgement. The students are given the opportunity to give as many ideas as possible in a given period of time.

HOW TO CARRY OUT BRAINSTORMING IN CLASS

Objectives	Steps to take	How to guide the discussion
<ul style="list-style-type: none"> - Compile the original ideas to feed the discussion or respond to a question - Encourage spontaneity 	<ul style="list-style-type: none"> - Inform the students that you want to collect as many ideas as possible from them. - Give the following instructions <ul style="list-style-type: none"> • Be spontaneous (avoid evaluating them with others) • Be receptive to the comment of others. Don't contradict or mock others • Add new ideas to those given by others 	<ul style="list-style-type: none"> - Clearly formulate a question and repeat it if necessary. - Take down, all contributions - If the exercise seems to lag, restate the question to stimulate new responses - At the end of the brainstorming exercise summarise the information and give a general response/answer

DEALING WITH DIFFICULTIES

Difficulties	Remediation
<ul style="list-style-type: none"> - The Students answers are unrelated to the topic - The students lack knowledge of the topic and therefore reluctant to share ideas 	<ul style="list-style-type: none"> - Redefine the topic more clearly before resuming - Provide some guiding responses to stimulate reflection and participation.

III- ROLE PLAYING

HOW TO CARRY OUT ROLE PLAYING IN CLASS

Objectives	Preliminary steps	How to lead the class
Permit the students to have multiple points of view of in a given situation	<ul style="list-style-type: none"> - Explain the situation in order that each student participant will understand what each role requires or entails - Give the context: place, time circumstances and some other background information, in order to help them place themselves in the situation - Ask questions to help the students define each role - What does this want and why? What goal does he/she wish to obtain/achieve? - Leave some time for the preparation, the role play proper and the discussion. 	<p>For the role play to be effective follow the following 4 steps;</p> <ol style="list-style-type: none"> 1) Preparation-present the story (topic, situation, what decision are those concerned going to take) 2) Rehearse-with the teacher as the stage director or facilitator; 3) Perform: - give the audience an assignment: to concentrate on the story or setting rather than the actors. 4) Conclusion: Discussion and feedback. – encourage the students to comment on the issues raised. <ul style="list-style-type: none"> - Teacher, can conclude with remarks that bring the students back to the objective of the exercise.

DEALING WITH DIFFICULTIES

Difficulties	Remediation
<ul style="list-style-type: none"> - The seriousness of issues treated are made obscure by the entertaining nature of role playing - Class becomes noisy 	<ul style="list-style-type: none"> - Teacher may need to remind the students of the main topic/subject of the activity. - Control the laughter and maintain discipline.

IV- INTERVIEWING

This is the act of inviting someone to talk about his or her experiences by answering questions from students on a given topic.

HOW TO CARRY OUT INTERVIEWS IN CLASS

Objectives	Preliminary steps	How to lead the group
<ul style="list-style-type: none"> - to gather information from a first –person experience (report) - to develop interviewing skills 	<ul style="list-style-type: none"> - Contact a resource person and invite him/her to your school - Prepare a questionnaire with the student (learners) and if necessary give it in advance to the resource person. - Select students who will conduct the interview - Select one of the members of the group who will usher and present the visitor. - Select another member of the group to thank the visitor at the end of the interview. 	<ul style="list-style-type: none"> - Welcome and present the visitor. - Set the context and the amount of time for the interview - Outline the procedure the interview will follow. - Have the students ask the questions they have prepared; - Moderate the interview exchange when necessary - Let one of the students chosen, thank the visitor at the end of the interview

DEALING WITH DIFFICULTIES

Difficulty	Remediation
The visitor talks for long and out of the subject (topic)	<ul style="list-style-type: none"> - Refocus the conversation and suggest that the visitor answers questions asked by the students.

V- SMALL GROUPS

Working in small groups helps students to share ideas and to develop skills such as listening, humility; sharing/team spirit etc. The teacher can maintain the same group in carrying out a number of activities or vary the composition from one activity to another.

HOW TO CARRY OUT SMALL GROUPS IN CLASS

Objectives	Preliminary steps	Leading the group
<ul style="list-style-type: none"> - Have every student participate in the discussion and search for solutions - Develop initiative and cooperation skills (common research of solutions to problems) - Share and expand ideas - Experience teamwork - Assume leadership and responsibilities 	<ul style="list-style-type: none"> - Successful, small group work depends on three factors. <ol style="list-style-type: none"> 1) Clear instructions on the task to be accomplished 2) Time available 3) Imaginative and effective presentations to the large group - Form small groups of students following different criteria: by the goals to attain, by the experiences they bring to the particular activity, by gender, by whether they sit next to each other, by ability etc. - Tell the students first of all to write down their ideas before sharing them with the group. That will help them to formulate their own ideas before listening to those of others (co-construction). 	<ul style="list-style-type: none"> - State clearly the task and the results expected. - Fix a time limit for the task to be accomplished - Ask the members of the group to assign responsibilities: moderator, time-keeper, reporter - Explain the task of the moderator and the reporter and help the students to fulfil their role - Determine how the group will report the work of the small-groups oral presentation, role play etc. - Circulate within the groups; ask questions and follow-up the evolution of the work in groups.

DEALING WITH DIFFICULTIES

Difficulties	Remediation
<ul style="list-style-type: none"> - Student may not concentrate on the task or understand the instructions - The members of the group are not able to reconcile their differences - Some members may want to dominate the groups. - Cases where all the groups are working on the same topic - Non participation of some members 	<ul style="list-style-type: none"> - Identify the cause of the disturbance and restate the objective or ask the student to do that and write it on the chalk board. - Work with the group to come to a consensus. - Remind them of the objectives of small group work and the importance of the contributions of each member in accomplishing the task. - Ask only one group to present the work, then the other groups will complete with what had not been said; - Redistribute the tasks or responsibilities to those not participating, proceed to co-construction.

VI-ANALYSING DOCUMENTS

Documents are at the centre of instruction in social sciences.

a) TYPES OF DOCUMENTS

These are grouped in three (03) main categories: written documents, picture/photographs and other documents.

Written documents	Icons (images)	Other documents
<ul style="list-style-type: none"> - Newspaper articles “headlines, tracts”. - Speeches and declarations. - Letters - Official texts (laws, decrees treaties) - Literature (novels, memoires, biography ,autobiography, historical essays, political essays etc. 	<ul style="list-style-type: none"> - Adverts (art, propaganda, cinema) - Postcards - Photographs - Paintings, drawings, cartoons etc. 	<ul style="list-style-type: none"> - Maps (topographical, geological, climatic, thematic) - Diagrams, sketches - Table of statistics - Graphs (pie-chart, histogram pyramids, bar charts - Audio-visual - Observations in the field.

HOW TO CARRY OUT AN ANALYSIS OF DOCUMENTS IN CLASS

Objectives	Preliminary steps	Leading the group
<ul style="list-style-type: none"> - Equip yourself with knowledge - Develop competences (skills), in students <ul style="list-style-type: none"> • The ability to observe, situate, locate, identify, spot, name, link, compare • The ability to extract information from a document, classify, distribute, describe, regroup, differentiate, characterize, device etc. • The ability to explain, comment, interpret, give your point of view, separate information by bringing out importance, summarize, generalize, bring out the consequences • Draw conclusions etc. 	<ul style="list-style-type: none"> - Familiarise the students (learner) identify essential elements at the start, in the form of questions as follows: <ul style="list-style-type: none"> - What is it all about? (main idea) - Whom (author/source) When (context, surrounding, circumstances, date of publication, edition <ul style="list-style-type: none"> - For who (user) - The title, scale, key, name - Classify the document 	<ul style="list-style-type: none"> - If the lesson is introduced with the study of a document(s), after having acquired the document, ask the students to answer the following questions: <ul style="list-style-type: none"> - For who? - What is it about - What for? - When?

HOW TO CARRY OUT AN ANALYSIS OF DOCUMENTS IN CLASS (Continued)

Objectives	Preliminary steps	Leading the group
<ul style="list-style-type: none"> The ability to establish the link between many documents, detect, regroup, classify in a logical manner similar information, select and organize the main points in relation to the topic studied, explain, appreciate and complete the information 	<ul style="list-style-type: none"> Let the students read or observe the document in order to get to know the content and have enough time to discuss it. Present the photographs by explaining their purpose and the context. Prepare the students for a video-presentation with an introduction and questions, the answers of which they should be looking for as they watch the video. 	<p>Then, use questions relative to the topic of the lesson</p> <ul style="list-style-type: none"> With a blank document in front of the students let them react describe the scene or even complete it. From a case study, an opportunity is given to students to work through debates, discussion, writing and group work.

VII. INQUIRIES

To inquire: Search for testimonies/ analysis of information on a given topic/ process of resolution of problems from experiences. There are two categories of inquiries-**directed and free inquiries**

HOW TO CARRY INQUIRIES IN CLASS

Objectives	Preliminary steps	Leading the group
<ul style="list-style-type: none"> Encourage the students to identify the event/phenomenon and assemble the information by using external sources in class (idea, books, experiences related to the family and members of the community as well as folktales. 	<ul style="list-style-type: none"> Communicate/state the topic Define the objectives of the inquiry Have the questionnaire elaborated Determine/choose the resource person or the public targeted and place Choose the student responsible for the inquiry. Discuss with the students on the stages and the right attitude to display. 	<ul style="list-style-type: none"> Present yourself in front of the resource person Invite the students to ask prepared questions to conduct the inquiry. Moderate the interview if necessary Thank the resource person at the end of the session Sort out and analyse the result Restore in the form of presentation and/ or an album Exploit the information

Finally classroom practice calls of a combination of methods/techniques. It is important to lead the student to write down pertinent points while the different methods are being used.

Article 2: The syllabus presented in article one here above shall be implemented as from the beginning of the 2014-2015 school year;

Article 3: All previous provisions repugnant hereto are hereby repealed;

Article 4: Inspectors Coordinator General, the Director of General Secondary Education, the Director of Examinations and Certification, Regional Delegates of Secondary Education, Divisional Delegates of Secondary Education, Education Secretaries of various Private Educations Agencies, Principals of public and private schools, each in their own sphere shall be charged with the strict implementation of this order which shall be inserted and published in the Official Gazette in English and French.

Yaoundé, 13 AUG 2014
