QUESTION 1: TRANSLATION (80 marks)**Translate into French**

One Saturday, we went to study in our school and returned late in the evening. On our way back, it was raining heavily and unfortunately, we had no umbrella. We heard some noise from the bush. We were all frightened and started running. My sister fell and lost her school bag with all her books. Because of the darkness, we could not find her bag. She started crying since she knew that the rain was going to soak all her books and she would be punished at home.

We finally reached the house late and our parents were worried when we told them what happened. They were angry but did not blame us because it was not our fault.

My father was angry and ended by saying: "If there was electricity, my children would not have been suffering like this."
